

Brandon Robertson

Director of Information Technology

Brandon Robertson has served as the Director of Information Technology at Port Freeport since 2014, bringing over 20 years of combined experience across the private and public sectors. In his role, he leads all aspects of the Port's IT operations, including infrastructure, access control, cybersecurity technologies, and the integration of operational (OT) and information (IT) systems.

Brandon is responsible for both internal IT staff and external contractors, ensuring the Port's technology environment remains secure, resilient, and aligned with evolving industry standards. He plays a key role in long-term strategic planning, technology modernization, and capital budgeting. His oversight includes the procurement of systems and services, the development of IT policy and procedures, and the implementation of frameworks and regulatory requirements from NIST, CISA, and the U.S. Coast Guard.

Education

Information Technology - ITT Technical Institute

Business Studies / IT – Southern New Hampshire University

Affiliations & Community Involvement

Brandon is a member of the Maritime Transportation System ISAC and Houston InfraGard

Personal

Brandon was born and raised in Sweeny, Texas, and now lives in West Columbia with his wife, Krystal, and their four children: Lilly, Zachary, Emily, and Ezra. Outside of work, he enjoys spending time with family and exploring new technology.
