PROJECT CARGO EXPORTED AT PORT FREEPORT

Freeport, TX (February 3, 2017) – Project cargo was transported from the Caterpillar facility in Peoria, Illinois to Port Freeport by Union Pacific Rail Road (UPRR). The dismantled mining truck components were lifted off the rail cars by a stevedore utilizing the port’s Gottwald Crane. The cargo was transferred to the Motor Vessel (MV) Hoegh Copenhagen which then exported to a mining operation in India.
